iS CLINICAL® YOUTH EYE™ COMPLEX

By METSV · January 24, 2010

iS CLINICAL® YOUTH EYE™ COMPLEX is a breakthrough formula that utilizes “intelligent proteins” to combat the signs of aging at a cellular level. **iS CLINICAL® YOUTH EYE™ COMPLEX** gives the skin stronger and better able to resist damage; rapidly reduces wrinkles, puffiness and dark under-eye circles to keep skin moist, smooth and protected all day long.

*METSV says: Anyone who is looking for the best of the best in skincare tends to flock toward iS CLINICAL®. Ask any professional worth their salt what is one of the best, most effective, results-producing, anti aging product lines is and I bet you any amount of money they will answer iS CLINICAL®. It is THE ultimate in skin rejuvenation and repair and it does an amazing job of revitalizing and healing the skin. I am so incredibly HAPPY that I got a chance to review the **YOUTH EYE™ COMPLEX**. I had been drooling about it ever since hearing the buzz that iS CLINICAL® was going to launch it. You just know it's going to be THAT good and that every celebrity in town is going to be using it, and maybe, just maybe, saying no more often to the Botox needle for crows feet, undereye bags, and wrinkling.*

*True to form, **iS CLINICAL® YOUTH EYE™ COMPLEX** is downright great. This light as a feather, unscented cream instantly absorbs into my skin. I pat it gently around my eyes, and then because I have no control, I take one little pump and put it between my eyebrows and a little right above my lip and I do this because it's like applying an eraser to my furrows and little liplines - in seconds they look less severe and barely noticeable. This is one of those products that will just continue to show improvements in the eye area over time. If I'm seeing the kind of results I'm seeing in less than a few weeks I can't WAIT to see what my eye area looks like after a month or two. iS CLINICAL® took the skincare world by storm only a few short years ago and this happened because the products are that cutting edge and that good. If you walk into a dermatologist's or plastic surgeon's office and you see the line, well then you'll know you're in good hands! I have not been underwhelmed by any of the products - my staples being **SUPER SERUM™ ADVANCE+** and **PRO-HEAL® SERUM ADVANCE+**- but now, now with this eye complex, I've added another weapon in my fight against aging eyes - This is going to end up being a "must have" or "best seller" in every online retailer of iS CLINICAL® - it's just THAT good. LOVE it.*
